2. RATE MILEAGE

2.1 REGULATIONS

APPLICATION OF RATE MILEAGES

2.1.1 For some services, rates vary based on the distance between the originating and terminating channel terminations involved in completing the transmission path. Charges for these services will depend on calculated rate mileage between rate centers.

RATE MILEAGE MEASUREMENTS

2.1.2 Rate mileages are generally equivalent to airline miles between two points, called rate centers. Each rate center has both a vertical (V) and a horizontal (H) coordinate which are defined based on the geographic latitude and longitude of the rate center. A list of V& H coordinates used by the Company is shown at section 2.2. The distance between any two rate centers is the rate mileage computed as explained in 2.1.3.
2. **RATE MILEAGE** (Continued)

2.1 **REGULATIONS** (Continued)

### DETERMINATION OF RATE MILEAGE

2.1.3

The rate mileage between two rate centers is computed using the formula:

\[ A^2 + B^2 = 10 \cdot C^2 \]

Where \( A \) is the difference between vertical (''V'') coordinates of the two rate centers, \( B \) is the difference between the horizontal (''H'') coordinates, and \( C \) is the rate mileage between rate centers.

The formula used to determine rate mileage is:

\[
\text{Rate Mileage} = \text{Square root of } \frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}
\]

Where \( V_1 \) and \( V_2 \) are the vertical coordinates and \( H_1 \) and \( H_2 \) are the horizontal coordinates of rate centers 1 and 2 respectively.

2.2 DIRECTORY OF STATIONS

The directory of stations contains the following:

Listing of Points - Listings of points in Alaska are arranged alphabetically.

Abbreviations - A list of abbreviations and their meanings is listed below.

AFB - Air Force Base
APS - Air Force Station
tsa - Tariff same as
USCG - United States Coast Guard

3. GENERAL PROVISIONS

3.1 PAYMENT ARRANGEMENTS

ESTABLISHMENT OF CREDIT

3.1.1

Each applicant for service may be required to establish credit before service is provided. When the applicant’s credit is satisfactory to the Company, no deposit will be required. If an applicant’s credit is not satisfactory, an advance payment or deposit will be required.

The Company is not obligated to furnish telephone service to an individual or firm that has an outstanding delinquent balance for telephone service (residential or business) previously rendered at the same or different address, unless arrangements have been made to liquidate such indebtedness to the Company.

(A) Establishment of Credit - New Applicants

(1) Applicants for service who have had no previous account with the Company may establish credit by supplying credit references acceptable to the Company. The Company might not require a deposit when the supplied credit references are acceptable.

(2) Applicants who are unable to furnish acceptable credit references may be required to make advance payments or place a deposit with the Company.
3. GENERAL PROVISIONS (Continued)

3.1 PAYMENT ARRANGEMENTS (Continued)

3.1. ESTABLISHMENT OF CREDIT (Continued)

(B) Re-Establishment of Credit

(1) A customer who fails to pay a bill for service may be required to bring the account current and re-establish credit by making a deposit.

The Company may require an existing customer to make a deposit or increase a deposit if increased usage warrants such action or if the customer's payment record is unsatisfactory.

The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Company's requirements as to the prompt payment of bills on presentation nor constitute a waiver or modification of the regular practices of the Company providing for the discontinuance of service for non-payment of any sums due the Company for service rendered.

The Company may discontinue service to any customer failing to pay bills without regard to the fact that such customer has made a deposit with the Company to secure payment of such bills or has furnished the Company with the guarantee in writing of such bills.

3. GENERAL PROVISIONS (Continued)

3.1 PAYMENT ARRANGEMENTS (Continued)

3.1.2 DEPOSITS

The Company may, in order to safeguard its interests, require an applicant or customer to make deposit to be held by the Company as a guarantee of the payment of charges. Such deposits will be the equivalent of up to two months estimated charges for the service provided. At such time as the service is terminated, the amount of the deposit is credited to the customer's account and any credit balance which may remain is refunded within sixty (60) days after discontinuance. At the option of the Company such a deposit may be refunded or credited to the customer at any time prior to the termination of service. In no event will the Company retain a customer’s deposit longer than two years, providing that in the interim the Company has not been forced to disconnect that customer’s service for reasons of delinquency in payment of charges, and that the customer has not been delinquent in payment more than one in any 12 consecutive months. On deposits in excess of $100 the Company will pay interest at the time the deposit is refunded. Deposits will be placed in an interest bearing account, and the Company will pay the rate of interest earned in the account.

3.1.3 RENDITION OF BILLS

(A) Regular bills will be due within 30 days from the date they are rendered. An additional 15 days will be granted prior to termination of service by the Company.
### 3. GENERAL PROVISIONS (Continued)

#### 3.1 PAYMENT ARRANGEMENTS (Continued)

#### 3.1.3 RENDITION OF BILLS (Continued)

**(B)** Charges for Message Toll Service and non-recurring charges are billed to the customer monthly in arrears. When, in its opinion, the Company feels that excessive or unusual use of long distance service is occurring, it may demand immediate payment for such service and/or require the customer to increase existing deposits, post a surety bond, or terminate the service.

**(C)** The bill will be considered as rendered when postmarked by a U.S. Post Office, addressed to the addressees at which service is or was last being rendered, or to another mailing address as specified by the customer.

**(D)** Bills shall be payable immediately upon receipt and past due twenty-five (25) days after the date of the bill or after any payment date previously established by agreement between a customer and the Company. If the bill is not paid when past due, the Company will apply a late payment charge not to exceed .875% each month on the current unpaid balance.

**(E)** In those instances where billing and collections services are provided to MTA -LD by a local exchange carrier (LEC) pursuant to contract, the individual LEC’s billing and collections rules, terms and conditions, as prescribed in the LEC’s currently effective tariff, shall govern the toll billing services rendered on behalf of the MTA -LD.

If the dispute is not resolved to the customer's satisfaction, the Company will notify the customer that a complaint may be filed with the Regulatory Commission of Alaska under 3 ACC 48.120 or 3 ACC 48.130 and will provide the customer with the telephone number and address of the Commission. 4.2 SCHEDULE OF CHARGES (Continued)

GENERAL

4.2.1

(A) Charges for Message Telephone Service

Charges for Message Telephone Service are applied as specified in Section 4.2.

(B) Rate Mileages

Rate mileages between rate centers utilized in the determination of charges for Message Telephone Service are determined as shown in Section 2.1.3 of this tariff.

(C) Timing of Calls

The time-of-day when connection is established, in accord with the time in use at the originating point, determines whether Day, Evening, or Night/Weekend rates apply on a message telephone call. All minutes are rated according to the applicable rate period regardless of whether a message begins in one period and ends in another (i.e. if a call is placed at 4:45 pm and ends at 5:30 pm, the Day rate would apply up to, but not including 5 pm. The Evening rate would apply from 5 pm to 5:30 pm.). Chargeable time for a rate period (e.g. 8 am to 5 pm) begins with the first stated hour (8am) and continues to, but does not include, the second stated hour (5 pm).
4. MESSAGE TELEPHONE SERVICE (Continued)

4.2 SCHEDULE OF CHARGES (Continued)

GENERAL (Continued)

4.2.1 C) Timing of Calls (continued)

Initial period rates apply for the initial period or less after connection is established, and additional period rates apply for each additional period or fraction thereof in excess of the initial period (e.g. if a call is 30 seconds long, the initial minute rate would apply to the entire call; if a call is 1 minute and 15 seconds, the initial minute rate would apply to the first minute and the additional minute rate would apply to the 15 seconds).

(D) Fractional Rates and Charges

When a rate involves a fraction of a cent, the fraction is carried through the computation of the charge for the service. When the charge so computed includes a fraction of a cent, a fraction of less than one-half cent is disregarded and a fraction of one-half cent or more is treated as one cent.
